

Session:      Underground Mining #2  
                  Wednesday, Sept. 24  
                  8 – 10a.m.  
                  Room N259, Las Vegas Convention Center, Upper Concourse

Title:           Reducing Miners Exposure to Diesel Particulate Matter – An Integrated Approach

Presenter:     Vic Christensen, Maintenance Manager, Stillwater Mine, Stillwater Mining Company

Abstract:

Stillwater Mining Company has been an industry leader in their approach to DPM compliance. They have developed a DPM Attenuation Plan which continues to evolve based on the exploration and testing of new technologies in efforts to reduce the miners' exposure to DPM in its operation. The presentation will focus on three main areas of Stillwater Mining Company's DPM compliance strategy.
